Profile Summary

I'm a recent BCA graduate with a strong interest in creative technology. I've developed my skills in Web Development, UI/UX Design, and Graphic Design through both academic projects and self-learning on platforms like Skillshare. I enjoy turning ideas into simple, clean, and user-friendly designs—whether it's building a website or designing a mobile app interface. I'm always curious to learn new tools and love combining creativity with functionality. I'm now looking for opportunities where I can apply my skills, grow as a designer/developer, and contribute to meaningful projects.
